## Excellence in the Artistry of Reborn

You, too, can transform a baby doll into a "Precious,  
True To Life Artist Baby"

**Where each and every Baby is a  
"One Of A Kind" Original**

Thank you for taking the time to read this instructions book to *Learn the Art: Case Study#3 "Reborn the Silicone Vinyl Doll"*. This is book #3 in a series of booklets to look into more details and specifics of the Reborn Artistry Process for Reborn Silicone Vinyl Dolls.

**Learn the Art: Case Study #3 "Silicone Vinyl Baby Reborns"...** will provide you a step by step process of transforming the Silicone Vinyl Doll(s) into cherished collector reborns. Each one of these amazingly life-like baby dolls starts out as a beautiful collector doll waiting to be reborn. Patience is a more of a virtue in each and every step of the silicone vinyl reborn process.

**REALISTIC Hair...** In this case study, you will see samples of various hand-rooted babies. We will start with basic hand-rooting, and move into the micro-rooted baby. You will see hair placement, the application, and of course, the final results.

**Uniquely Designed, Custom Cloth Body.** We will review the steps associated with the creation of a doe suede soft body, and look at various colors and styles. We will weight the body to have a very natural, and healthy baby feel. He will be lightly stuffed in order to distribute his weight properly, from head to toe, with fine beads of plastic and sealed with additional silicone. You will see all the extra attention & details that are used in designing & weighting the baby's body which will enable him to be unbelievably realistic & cuddly.

**Breathtakingly, Realistic Skin Tone,** with custom life-like hand-applied features. In order to make sure that the baby's coloring is as perfect as possible and true to life, we will use external blushing with artistic color sticks and Winsor Newton oils. He will be meticulously blended, highlighted, and shaded to give our baby that natural healthy glow that will make him so unique and one-of-a-kind.

**Subtle Veining...** In this Case Study, we will apply very realistic and subtle veins in all the appropriate areas. External application of veins are required for the special and spectacular silicone vinyl doll. These extra details are fun and add that little extra touch to the baby's realism.

**He will take your breath away...** We will sculpt the inside of his nose, and apply a thin strip of black felt backing. We will give this baby a manicure with a special treatment of sealers that leave him ever so realistic-looking.
